Response to Amendment

The Amendment, filed on 7/6/06, has been entered and acknowledged by the Examiner.

Cancellation of claims 1-13 has been entered.

Claims 14-20 are pending in the instant application

Allowable Subject Matter

Claims 14-20 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

The prior art of record discloses a method for manufacturing a flexible panel comprising (a) providing a first substrate having a plurality of functional switches or conducting lines thereon, (b) bonding a second substrate on the plurality of functional switches or conducting lines, (c) thinning the first substrate to a predetermined thickness, (d) adhering or sealing a removable substrate on the first substrate (e) removing the second substrate. However, the prior art of record neither shows nor suggests further (f) forming a plurality of light valves, light-emitters, or conducting layers on the plurality of functional switches or conducting lines, (g) removing the removable substrate from the first substrate, and (h) coating a flexible polymer on the surface of the plurality of light valves, light-emitters, or conducting layers and the first substrate.

Claims 15-20 are allowable because of their dependency status from claim 14.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2879

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
